

UPDATE: Coronavirus Disease 2019 (COVID-19) Preparedness

In coordination with Mayor Merchant and our local Emergency Management office, we are canceling library programs and outreach through Saturday, March 28, 2020. This includes all children's and adult programming held on-site or in the community, outreach to community sites, and meetings in our program room.

The Library remains open at this time, but as this is a rapidly evolving situation, further measures may be taken to keep our patrons, staff and community safe.

Please remember that there is a digital library available to you 24/7. Thousands of books, audiobooks, movies and television shows are downloadable through [Hoopla](#), [Overdrive](#), and [RB Digital](#) with your Terryville Public Library card.

The Terryville Public Library is committed to providing information you can trust about the novel (new) coronavirus (COVID-19). Here are some official, well-supported and reliable sources of information:

- [State of Connecticut Coronavirus Disease 2019 Page](#)
- [Torrington Area Health District \(TAHD\)](#)
- [Centers for Disease Control and Prevention \(CDC\)](#)
- [World Health Organization \(WHO\)](#)
